

## **SENIOR HYDROPOWER ENGINEER**

Concord, New Hampshire

The H.L. Turner Group Inc. is offering an exciting career opportunity for an innovative, senior level engineer with strong technical, project management and client relationship experience to join the firm's hydropower group. Candidate will develop heavy civil designs, as well as plan, coordinate, direct, and supervise design teams for hydroelectric facilities – public and private. Strong communication skills are required. This is a leadership position with the opportunity to be part of the firm's Ownership Team.

### **Qualifications/Skills:**

- Minimum 15 years of design experience and a BS in Civil or Structural Engineering.
- Registered Professional Engineer.
- Lead the design, management, and growth of our hydropower engineering department.
- Ability to coordinate with design team, clients, and local/state/federal agencies.
- Strong design skills and reputation in the hydroelectric power market for dams and hydropower services.
- Familiarity with the Federal Energy Regulatory Commission (FERC) processes and other federal, state, and municipal permitting requirements.
- Approved by the FERC as an Independent Consultant to perform safety inspections on dams and hydroelectric power facilities.
- Occasional travel and site visits are required.

The H.L. Turner Group is an award winning, multidiscipline Engineering & Architectural firm headquartered in Concord, NH. Equal Opportunity Employer.

Competitive compensation and benefits package included for the successful candidate. All inquiries will be held in the strictest of confidence. Please send resumes to Sara Ihle at The H.L. Turner Group Inc., 27 Locke Road, Concord, NH 03301, or via email at [sihle@hlturner.com](mailto:sihle@hlturner.com).
